

Navy Surface Combat Systems Engineers

Company: Technology Service Corporation, TSC

Location: Washington DC 20003

Status: Full Time, Employee

Job Category: Engineering

Relevant Work Experience: 0-15 years

Education Level: Bachelor's Degree

Company Overview: TSC is a high technology company primarily engaged in providing engineering consulting services and specialized products to the U.S. Government and industry. Consulting and research services span the systems life cycle from advanced concept development through logistics support. Our specialized products include electronic components for microwave and digital processing systems; prototype demonstration systems; and computer software for radar siting, and sensor simulations

Job description: TSC requires experienced engineers with specific expertise in Navy surface combat systems, command and control systems, and sensors to provide engineering support services to the Program Executive Office for Integrated Warfare Systems (PEO IWS). Responsibilities include support to surface combat system integration and test, integrated air and missile defense (IAMD) baseline development, the AEGIS Modernization program, Command and Control architecture and tactical network programs, and the ship self-defense system (SSDS).

Requirements: An undergraduate degree in an engineering discipline or mathematics, physics, or computer science is preferred. Relevant work experience will be considered as a substitute for the degree requirement. Past experience supporting the AEGIS Integrated Combat System, Cooperative Engagement Capability, or SSDS program is highly desired. Additionally, candidates must possess U.S. citizenship and a background that would permit the U.S. Department of Defense to issue a Secret Clearance

This position is contingent upon Task Order award

We are an Affirmative Action / Equal Employment Opportunity Employer (M/F/D/V). All qualified applicants will receive consideration for employment without regard to race, color, gender, religion, sex, national origin, protected veteran status or any other protected characteristic. Reasonable accommodations may include but are not limited to, that which may enable individuals with disabilities and special disabled veterans to perform the essential functions of this position.
