

## **Test and Evaluation Engineer**

Technology Service Corporation (TSC) is a high technology engineering company founded in 1966 and has provided years of valued support to Navy, Air Force, Army, and FAA programs. Our 350+ employees include world-class engineers involved in a wide range of consulting services and technology development for both government and industry.

TSC seeks a Test and Evaluation (T&E) Engineer to support testing, system integration, and validation of US Navy Test Sets. The successful candidate would provide support to the Lead Test Engineer and Software Engineer by maintaining and updating test software, reviewing technical documentation, providing engineering feedback, and supporting test events as required.

Additional duties required:

- Interfacing with the hardware Subject Matter Expert (SME) and Software Lead in the design and troubleshooting of Unit Under Test (UUT) validation software
- Understanding and implementing methods described in UUT documentation such as Technical Requirements Documents (TRD) and Technical Specifications (TSpec) to design software for testing
- Ability to understand system design and hardware schematics to properly communicate with test instruments
- Providing inputs to the Integrated Master Schedule (IMS), budgeting, and other program acquisitions related efforts
- Estimating task effort and working diligently to meet scheduled assignments
- Developing software with best practice design principles and documentation standards
- Troubleshooting test bench instrumentation with the possibility of contacting Original Equipment Manufacturers (OEMs) for assistance

Qualifications Required:

- Bachelor's in Engineering or related technical discipline or related work experience
- Must be a US Citizen and able to obtain a DoD Secret Security Clearance
- Proficiency using LabVIEW
- Experience with LabVIEW Object Oriented software design
- Demonstrates flexible attitude and adapts easily to changing requirements and schedules
- Must have excellent organizational skills
- Good verbal and written communication skills

The successful candidate will join a talented, diversified team of TSC engineers. TSC offers a technology driven work environment, challenging tasks, competitive salary, health coverage, profit sharing, a 401K retirement savings program, disability insurance, and tuition assistance.

The location for this position is Bloomington, IN.

Qualified applicants should submit a resume to:

Technology Service Corporation  
1983 S. Liberty Drive  
Bloomington, IN 47403  
Attn: Sandy Garrett  
Email: [sandy.garrett@tsc.com](mailto:sandy.garrett@tsc.com)  
Fax: (812) 558-7098

TSC is an equal opportunity employer of qualified women, minorities, veterans, the disabled and otherwise protected classes of candidates. Qualified veterans and disabled applicants are encouraged to apply.
