

STATISTICAL REGRESSION ANALYST

Our work program is focused on the design of defense sensor, weapon and command and control systems and platforms that meet life cycle affordability objectives. Identifying system operating and support costs as early as possible in the life-cycle of a system is critical for producing affordable, feasible design configurations to support user requirements. Our **LifeCycle-ONE™** decision support tool links design decisions to system operating and support costs to achieve performance and affordability objectives. This tool allows the Program Manager to examine alternatives to system design early in the acquisition timeline, resulting in smarter, more affordable design choices.

Technology Service Corporation is seeking a well-qualified **STATISTICAL REGRESSION ANALYST** to work at our Crystal City, Arlington, VA office with our Program Manager and our clients to optimize our **LifeCycle One** modeling tool and provide the best design solution for meeting our clients' performance and total ownership cost goals.

The Opportunity: Statistical Regression Analyst

The Tasking

- Ability to search government and commercial sources of data focused on finding patterns in government, contractor, and documented data reserves to generate tailored information needed within the model.
- Conduct data regression analysis to generate the algorithms and provide visual results of various tested techniques.
- Ability to finalize / compile / format / and library results.

Qualifications

- **Must be a US Citizen**
- Bachelor's degree in a mathematics-related field desired with at least 2 years of work experience.
- Knowledge of standard office PC software tools such as Word, Excel, etc.
- Familiarity with MATLAB software highly desired.
- Excellent written and oral communication skills.
- Must have or be eligible for a Department of Defense SECRET security clearance.

TSC offers a professional working environment, competitive salary, and an excellent benefits package including paid personal leave and holidays, salary deferrals into a 401(k) matching plan, tuition reimbursement, a short/long term disability plan, and medical, dental, and vision insurance for qualified positions.

To apply for this position

Qualified applicants should forward cover letter, resume and salary requirements to **HumanResources@tsc.com**. Place **REGRESSION ANALYST** in the subject line; or FAX 301.565-0673

Only those candidates invited for an interview will be contacted. Employment is contingent upon the qualifying applicant undergoing a comprehensive background check.
