

ISO 9001:2000 QUALITY MANAGEMENT SYSTEM

1. Seller's quality system shall be in compliance with the current revision of ISO 9001:2000.
2. Compliance to ISO 9001:2000 shall be evidenced by current third party certification or documentation of a Praxis audit to the requirements of ISO 9001:2000.
3. Buyer and authorized government representatives (if a government contract is involved) reserve the right, with advanced notice, to enter, at reasonable times, Seller's plant(s) or those of Seller's suppliers at every tier that may be engaged in work relating to this Purchase Order for the purpose of surveillance/inspection of the Seller's (and Seller's suppliers) processes, controls, quality records and systems, and supplies/services procured under this Purchase Order. Surveillance/inspection of Seller's processes and controls will not constitute acceptance of the supplies/services being procured.
